

VIGOUR IMPEX

YOUR GLOBAL SOURCING PARTNER
OF TEXTILES & APPARELS

about VIGOUR IMPEX

In 1992, we began our journey in Lahore, Pakistan, sourcing textile raw materials for our global clients. Over time, we evolved into a leading provider of comprehensive textile and apparel supply chain management solutions. Our pioneering spirit was evident when we became the first in our industry to achieve ISO certification in 1997, a status we have proudly maintained ever since. This enduring commitment to excellence has allowed us to develop efficient systems to serve our clients for years to come. We are proud to comply with the latest ISO 9001:2015 certification

MISSION STATEMENT

“ With our strong presence in Pakistan for the last three decades, we have built solid relationships with both our suppliers and customers. This has enabled us to develop new products, explore international markets, and establish strategic partnerships that have earned us a reliable name and trust among our global suppliers, local and international customers.

”

CORE VALUES

Collaboration :

With our strong presence in Pakistan for the last three decades, we have built solid relationships with both our suppliers and customers. This has enabled us to develop new products, explore international markets, and establish strategic partnerships that have earned us a reliable name and trust among our global suppliers, local and international customers.

Integrity :

Our steadfast commitment to ethical business practices has been a cornerstone of our operations. On numerous occasions, we have gone the extra mile to honor customer claims, even at our own expense, in order to uphold strong and transparent business relationships, all while ensuring market standards are maintained. We empower our workforce through a culture of accountability and adherence to best practices, fostering a dynamic and responsible organization.

Knowledge :

1ST : At Vigour Impex, we are dedicated to continuous research and development, fostering ongoing training for our staff. Our cross-departmental meetings yield daily, weekly, and fortnightly reports that we readily share across our social media, website, and email marketing channels. We actively encourage constructive criticism as part of our positive approach, allowing us to adapt and thrive in evolving times. Innovation and sustainability are values close to our heart.

CORE STRENGTHS

Vigour Impex has become an influencer for many large manufacturers in their buying decisions, due to our long presence in the market. We guide our customers, many of whom are vertically integrated plants, to buy or hold their decisions based on our analysis. Our strong employee attitude, creative buying solutions, enthusiasm, and disciplined approach enable us to present products in a professional manner.

SUSTAINABILITY

Vigour impex has always promoted and included environmentally Sustainable features in its manufacturing and distribution practices.

ENVIRONMENTAL IMPACT

The textile industry has a significant environmental footprint, including high water consumption, chemical usage, and greenhouse gas emissions. Embracing sustainable practices can help reduce these impacts and preserve natural resources for future generations.

WASTE REDUCTION

Textile production generates substantial waste, including fabric scraps and discarded clothing. Sustainable practices, such as recycling, can minimize waste and promote a circular economy within the industry.

SOURCING OF ORGANIC COTTON

Vigour focuses greatly on following a responsible and sustainable approach to manufacturing clothes that employ cotton (100% Organic) sourced from certified farms in Pakistan, Africa, and Turkey.

MARKET INFLUENCE

The textile industry's global presence means that adopting sustainable practices can influence suppliers, manufacturers, and consumers worldwide. As major brands and retailers prioritize sustainability, they set market trends and inspire others to follow suit. In conclusion, sustainability is critical in the textile sector to address environmental challenges, promote social welfare, meet consumer demands, comply with regulations, drive innovation, and ensure the industry's long-term viability.
